

Maximize Revenue. Reduce Delays. Improve Cash Flow.

End-to-End RCM • Standardized Processes • Financial Visibility

Overview

LATAM Medical Network provides end-to-end revenue cycle management for hospitals and health systems. We standardize billing workflows, submit claims based on approved payer rates, and manage follow-up and collections with carriers to improve reimbursement outcomes.

Core Capabilities

- Full revenue cycle management (RCM)
- Payment posting and reconciliation
- Claims submission using contracted payer rates
- Reporting and performance analytics
- Denials management and appeals
- EMR / HIS integration support
- Accounts receivable optimization
- Bilingual billing teams

Optional Early Payment (Compliant Structure)

For qualified and properly documented claims, early payment options may be available based on approved receivables. Availability is subject to internal review and approval and is structured as a receivables-based transaction, not insurance or lending. Terms are defined in the provider agreement.

Compliance & Standards

- Billing aligned with payer-approved rates and guidelines
- Standardized processes across departments and locations
- HIPAA-compliant data handling and security controls
- Clear reporting for financial visibility
